

## Executive Summary

The Vancouver city group of Christ@Work was founded on March 9, 2005. A Wednesday morning group meets from 6:30-8:00am in Cascade Park, a Sunday morning group meets at St. John Lutheran Church in Salmon Creek from 9:45-10:50am, and our newest group meets on Fridays from 11:30am-1:00pm in downtown Vancouver. Additional groups meet in the Portland area. If you are interested in forming a group to meet at another time, please contact us.

**Group Purpose:** The purpose of the group is to be a discussion, support, and study group for business leaders, executives, managers, and professionals who wish to grow spiritually and professionally, to incorporate the love of Christ and minister to people in their workplace.

**Vision:** Transforming our world through Christ... one company leader at a time.

**Mission:** In pursuit of Christ's eternal objectives, we equip and encourage Christian business leaders to operate their businesses and conduct their personal lives according to Biblical principles.

**Life-changing Small Groups: *Building Relationships for Prayer, Godly Counsel & Spiritual Growth.*** Although varying in structure, each of the small groups provide scripturally-based teaching, prayer, and an opportunity to build life-long relationships with business peers as each member grows closer to Christ.

**Support Materials:** Christ@Work and its parent organization, Fellowship of Companies for Christ International (FCCI), develop a number of video, study, and support materials for personal and small group use.

**History: Reaching the Workplace for Christ.** In 1977, current Chairman of the Board Robert "Bobby" Mitchell and a handful of Christian business executives formed what was to become the very first small group in the history of FCCI (Fellowship of Companies for Christ International). Inspired by Charles M. Sheldon's book, *In His Steps*, they set out together on a journey to learn "What Would Jesus Do?" in their businesses.

**Franklin Graham**

"God has begun an evangelism movement in the workplace that has the potential to transform our society as we know it."
